## Professional Statement

Detail-oriented communication and digital media professional with a strong foundation in content strategy, user research, and cross-platform marketing. Skilled in creating engaging digital experiences across social media, developing audience-focused stories, and supporting growth initiatives through data-informed insights. Experienced in coordinating multimedia content, analyzing user behavior, and translating qualitative and quantitative findings into clear strategic recommendations. Adept at using tools such as Google Workspace, Canva, Adobe Creative Suite, and social media analytics to optimize content performance and enhance user engagement.

## Education

**Johns Hopkins University**, Krieger School of Art and Science

Washington, D.C.

*Candidate for MA in Communication*

Sep. 2024 – May 2026

Major GPA: 3.97/4.0

**Sun Yat-Sen University**

Zhuhai, China

*Bachelor of Management in Exhibition Economy and Management*

Sep. 2020 – Jun. 2024

Major GPA: 3.8/5.0

## Internship Experiences

**Sendpoints Publishing Co., Ltd**, Guangzhou, China

*Content Marketing Intern*

Mar. 2024 – Jun. 2024

- Created and published branded content daily across 3+ social media platforms, such as Instagram, Red Note, and WeChat to boost 10% increase in engagement and audience retention.
- Authored original 10+ WeChat articles and drafted weekly newsletters for multi-platform distribution, ensuring consistency in tone and storytelling.
- Supported outreach and real-time communication for a 2,000-attendee art fair by coordinating social media updates and collecting audience feedback across platforms.

**Rhizome Cultural Consultancy**, Remote

*Research Assistant Intern*

Mar. 2023 – Jul. 2023

- Designed audience segmentation reports using qualitative coding (80,000+ words analyzed) for trend forecasting in cultural and commercial markets.
- Analyzed data from 20+ industries and company reports, focusing on health product consumption trends and new product development, offering valuable guidance for follow-up interviews and online surveys.
- Conducted digital behavior research across e-commerce and content platforms (Taobao, TikTok, Red Note), applying findings to guide strategy recommendations.
- The results of the research lead to 10+ strategy recommendations and 80% of the recommendations were implemented by the leadership team.

**Starry Night Cultural Heritage Fund**, Zhuhai, China

*Brand & Education Content Coordinator*

2022 – 2023

- Researched and edited content for 50+ cultural education tools (i.e. Board Game, EdTech Tools), aligning with national curricula and international education standards.

*Think Tank Project Lead*

- Collected and analyzed government policy and standards related to Chinese ethnic minority cultural heritage dissemination, innovation and protection within 10 years period.
- Drafted reports and summaries for government partners to support sustainable education initiatives for rural cultural preservation. Coordinated external communication to align messaging with programmatic impact goals.

## Project Experience

**Course Project: Blue Jay Nights - A Campaign for Better Sleep**, Washington, D.C.

*Author*

Jan. 2025 – Apr. 2025

- Created a multi-channel campaign to reduce bedtime procrastination among JHU undergraduates, grounded in the Transtheoretical Model.

- Developed a segmented content strategy tailored to JHU students at different behavior change stages, combining email newsletters *Goodnight Guide*, Instagram posts, and offline workshops to maximize reach and engagement.
- Wrote all copy and scripts for digital and print materials, including newsletters, Instagram posts, flyers, and workshop content, translating complex behavioral science into accessible and persuasive language for college students.
- Created visually compelling infographics, posters, and calls-to-action that aligned with JHU's student wellness brand voice and improved engagement metrics.
- Used analytics and student feedback to refine messaging and improve outcomes.
- Project ranked top 5% in the class for innovation and execution.

#### **Course Project: TED Social Media Content Manual, Washington, D.C.**

*Author*

Jan. 2025 – Apr. 2025

- Wrote a cross-platform content manual for TED, analyzing audience differences across Instagram, TikTok, and Facebook to develop platform-specific strategies that aligned with TED's tone, structure, and publishing frequency.
- Created a three-month content calendar themed around TED Talks and events (e.g., Behind the Talks, TED Around Me) to increase user interaction and community participation.
- Defined SMART goals and ROI evaluation frameworks to monitor growth, engagement, and content effectiveness.
- Helped draft mid-project contingency plans and content safety policies, ensuring brand compliance with copyright, staff privacy, and platform guidelines.
- Recognized for top-tier performance: coursework ranked in the top 5%.

#### **2022 Zhuhai Citizen Fitness Games - City Robinson Orienteering Game, Zhuhai, China**

*Marketing Management*

May 2022 – Jan. 2023

- Produced and edited 5 short promotional videos using Adobe Premiere Pro and CapCut, incorporating animations, captions, and transitions to boost audience engagement.
- Built a cohesive brand identity system and stewarded public-facing narratives across 5+ platforms, such as Red Note, Weibo, WeChat and TikTok.
- Led a marketing campaign that attracted 1,400+ participants through strategic storytelling and visuals.

#### **Tianzige Volunteer Service Institution, Remote**

*Communication Volunteer*

Apr. 2021 – Dec. 2022

- Designed visual materials for 20+ events using Canva, Photoshop, and Procreate, including public health campaigns and educational outreach, supporting communication with local audiences.

### **Research Experience**

#### **2023 International Conference of Semiotics, Chengdu, China**

2022 – 2023

*The echoing, transmission, and hindrance: exploring the significance of communication in a sex education exhibition*

- Analyzed exhibition symbols using Peircean semiotics to create a dynamic meaning system and explore its evolution.
- Examined the history of China's sexual education development in relation to exhibition themes and developed a theoretical framework for analyzing the dissemination of exhibition meaning through semiotic derivation.
- Conducted extensive field research on sex education exhibitions from Sep to Dec 2022 by collecting 103 visual materials online and offline.
- Conducted 14 in-person and 22 online semi-structured interviews, with an average transcript length of 8,000 words.
- Probed curatorial communication contexts using text analysis to understand how exhibition symbol meanings are circulated.
- Identified three exhibition communication divergence types using the "unlimited semiosis" framework and provided recommendations to create compelling spatial environments and content settings in postmodern exhibition planning.

### **Skills**

**Digital & Design:** Canva, Adobe Creative Suite (Photoshop, Illustrator, Premiere), Power BI, Microsoft Office

**Communications:** Social Media Strategy (Instagram, TikTok), Content Calendars, Video Editing, Email Newsletters

**Language Skills:** English (Fluent), Mandarin (Native)
